EA SPORTS FIFA 19 was released on September 28 and captured the attention of its community through an overarching overhaul of the gameplay mechanics and overhauled presentation. Now it is time for EA SPORTS FIFA 22 to raise the bar even higher, starting with the goalkeepers. As the leader of the EA SPORTS FIFA franchise, it is my privilege and pleasure to announce that FIFA 22 Goalkeeper will be the first goalkeeping update to the game with all 27 FIFA Goalkeepers, including the updated and new goalkeepers. FIFA Goalkeepers are some of the most challenging and high-level players to face with their agile movement, superior vision, precision, timing and control. By harnessing the power of a full-bodied FIFA player inside a virtual glove, we can create the best goalkeeper simulation in the business. Now with "HyperMotion Technology," we will be able to capture players' movements in full-body motion capture suits to see everything from their elbows to their toes, with every single frame captured in ultra-realistic detail. This is the ultimate challenge for FIFA Goalkeepers, and a superlative achievement by our team of FIFA and motion capture experts. As our coverage continues, we will deliver more details and previews of each goalkeeper featured in this update on a regular basis. Subscribe for all the latest content here: In the meantime, we encourage you to review all the goalkeepers to see who has been updated in FIFA 21, and check out these videos for the best Goalkeepers in FIFA 21: Adrian: David Ospina: Juan Córdoba: Sacha Kljestan: Julian Green: Zinedine Zidane: Other Videos: Eden Hazard: S
